

LEGEND

Lithological Units

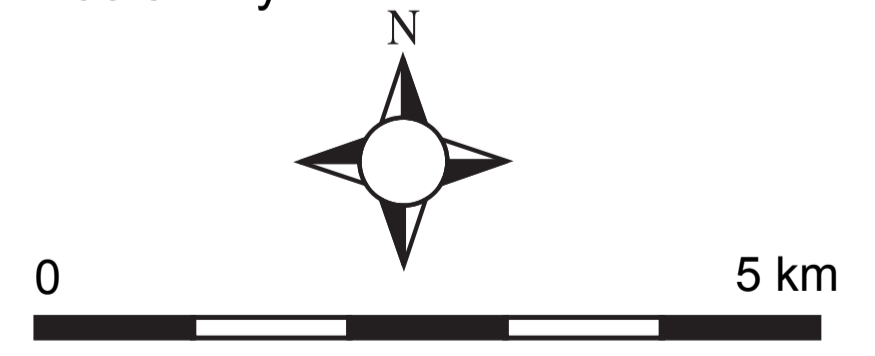

- Alluvium
- Quaternary basaltic volcanics
- Bowser lake sediments
- Mafic-ultra mafic rocks (multiphase gabbro)
- Hazelton sedimentary rocks
- Jurassic & older intrusions (Texas creek suite)
- Late Triassic Stuhini volcanic group
- Stuhini-Hazelton unconformity (Nelson & Kyba, 2014)
- Structure (faults)

Mineral Deposit Types

- Porphyry Cu-Au
- Magmatic Ni-Cu-PGE
- Shear vein Au

Prospects

- High Priority Targets
- Follow up Prospects
- Previous drill holes
- Metallis 2017 drill holes
- Adit
- Garibaldi magnetic anomalies
- Metallis magnetic anomalies
- Low Resistivity
